Interview

MESSENGERS

I proudly presents punkrock band THE MESSENGERS!Thanks Shannon for answers!

1.How are you my dear girl Shannon?

I'm doing very well. Our record is out and doing good so I don't have much to complain about.

2.I`m very like girl in the punkrock band on vocal.Who is your motivation in your band Messengers?

I would say I was inspired from a young age by Joan Jett. She's always seemed so strong and talented. I was also inspired by my grandmother who played guitar on local radio shows as a teenager. She was also a very tough woman that never let anyone keep her down.

3.Messengers is are punkrockers band,your opinion about major label,commercial band likes Green Day,Offspring.../Your opinion about D.I.Y scene?Do you Messengers D.I.Y band?

I definitely find myself wrapped up in a lot of DIY scenes. I like the common bond of people with similar interests. As far as bands like Green Day go... I can tell you right off that I'm not a fan of The Offspring. I do think it's important to point out that even these bands started off in a DIY scene, they just took some opportunities that you or I may not take, or may never have the chance to take. I think that Green Day has had some really good songs, but I probably wouldn't ever go see them live. I don't think it's my call to say that someone has "sold out" maybe if I knew them personally I could say that, but I don't. When it comes down to it, I really don't care about what label a band is on. What does matter to me is this.. Is the music and the message a good one and do I like it. If the band signs to a major label and their music starts being terrible, I won't buy their records anymore. Simple as that.

4.Do you believe in Armagedon..???

Wow, this is a surprising question! I really don't believe in anything that monumental. All things are what you make it. If you're referring to the song "The End" on the album I can tell you that it was written about race riots that happened in Cincinnati. The End doesn't refer to the end of the world, it was meant to show the end of my outlook on people and unity. I think it's something we all experience at some point of growing up. We all realize that the people we were taught to respect are not necessarily the ones that deserve to be respected.

5.Who is idea for starting Messengers?

Bryan (our bassist) and I started the band in 2000 along with two other people that are no longer in the band.

6.Your songs is reallity life,do you sometime writing text about no reallity?

I've tried to, but it always comes out sounding silly. I have a really hard time writing about things that I wasn't there to experience. I respect people who can do that, because I can't.
7.Your opinion about Sex,drugs,rock`n`roll?Who is the year old?Do you married???

I'm not really into drugs so that leaves a lot of time for the sex and rock'n'roll and I enjoy both quite a bit. I'm not married and I'm lucky if I can keep a boyfriend for a month! haha I'm the youngest in the band and Don (our guitarist) is the oldest. I won't tell you just how old he is but I know he was going to shows while I was in grade school!
8.Do you have in collection Serbian punk rock band?
No, but I would love to have some. Any Serbian bands can contact us at the website, I would really like hearing some of them.
9.Do you listen Hard Core music?Your favorite?
Hard Core has so many different definitions. I like mostly older punk. On the American side bands like Minor Threat, Angry Samoans, The Avengers, ect. Outside of American bands I like Cocksparrer, The Clash, Rose Tattoo, you get the point. I could list bands that I love all day!
10.Your cooperation with your record label punkcore records?When started new album?
Punkcore has been amazing. We are very happy with them and we owe them a lot. I think we will continue to work well together
11.Concerts?Do you played?How is the price you concerts?
Our concerts are usually pretty cheap depending on who we play with. We have played some big festivals with some legendary bands that were pretty expensive.

12.Do you have violence,fight on your concerts?
Usually we do not have fights. I think it's pretty stupid to fight at a show, I wish people could just enjoy the music and have fun. I think total we may have had one or two fights while we were playing.
13.Please tell me about punk/core scene in your town/country?
The punk scene where I live is pretty dead. We don't really have many good shows anymore. I'll usually drive out of town to see good shows. I think punk rock is starting to grow again though, I'm starting to see a lot of young kids at shows. I'm really happy that there's a new group of people that enjoy it.

14.Your plans for future?
I really want to tour, maybe we'll someday make it to Serbia! Traveling and playing live are the best parts about being in a band and I can't wait to do as much of that as possible. Then we'll make some more records, of course.
15.Do you read fanzine?The best is...?
I hate to admit this but I've really not been reading many zines lately. How about I'll pick this one up when it comes out? haha You can send me the zine and some Serbian punk records! Then Young Forever will be my favorite!
16.All the best my dear girl Shannon from Serbia(Young Forever)zine!Your message for end...???

Visit our website (www.TheMessengers.cc) and send us messages! We get e-mails from all over the world. I try to write everybody back. Also, thanks for the chance to be in your magazine.
